NATIONAL EGG REVIEW

In the beginning of the week prices were unchanged in all areas. During the week prices remained unchanged in the Midwest and California. In all other locations, prices increased one cent on medium and remained unchanged on the remainder. The market tone was fully steady for medium and steady on the larger sizes. Demand was moderate to good and was best into feature activity. Supplies of medium eggs were in close balance to instances tight while the heavier weights were generally sufficient. Central States breaking stock prices were higher. Offerings were tight to adequate for current needs with demand fairly good to good as liquid movement remains active. Floor stocks in close balance to mostly adequate. Trade sentiment fully steady to firm. Offerings of light type fowl far exceed current production with demand mostly light to moderate.

1/Information is supplied by a universe of 172 cooperators who normally have stocks on hand each Monday A.M. and is on the basis of matched plants reporting in both the current and previous weeks. Sample does not represent total U.S. inventory but includes eggs packed for export when in cooperator's coolers.

No valid comparison can be made with year ago or previous months' figures due to changes in number of plants surveyed, holidays falling in different weeks or changes in size of plant operations.

FOUR ADDITIONAL STATES IN WEEKLY PROGRAM

Beginning May 16, 2001 four additional States are being published for the first time in the weekly program for broiler eggs set in incubators and broiler chicks placed for meat production. The four additional States are Kentucky, Louisiana, Missouri, and Oklahoma. Data collection and weekly estimates began with the week ending April 7, 2001.
